Farms ln Illinois -- Farms for \$1.000. Farms in Illinois—Farms for \$1.000.

THE litinois Central Railroad Company offers rich
Frairle Lands adjacent to its Railroad at \$12 per
acre. A tract of eighty acres will make a good,
comfortable lounestead. The purchaser may hup on
long credit, paylog literest at six per cent. annually, and
if he has one thousand dollars in money be can, this year,
at the low piece of lumber, contract for a cooverlent
heres, foncing, and farming tools. The Company basold over one thousand of such tracts of land this season. It is well known that Chicago sends more grain to
market than all the Western lake ports included. This
is the best proof of the richness and graat vature of the
Illinois tands. The Illinois Central Railroad was finishadd to 1255, built through a sparsely settled country. It
takes to market this year upwards of thirteen milition of
bushels of grain, besides cattle, hogs, and many other
roducts.

To the Editors of the Louisville Journal: HEADQUARTERS GEN. Mc COOK's DIVISION CAMP WOON, Dec. 11 h, 1861. Gentlemen: In the Journal of yesterday and to-day, you speak of some sick soldiers who arrived at Louisville and Machrived at Lousville nn the Lousville and Nash-ville Railroad train on Thursday last, and who found no one to transport them to the general hospital. As you desire an explanation of the matter, I will endeavor to give it to you. In the forward movement of this division, one brigade was left at Nolin. On Tuesday last the Brigade Surgeon at Nolin reported the number of men to the general hospital, and they were sent on Thursday. The surgeon probably did not un-derstand then the necessary for sauding a despatch to Louisville, and was, for the first time, too far

When sick men are sent from this command, timely notice is always given, and the men are always well cared for. The unedical stall of the army are always ready to have their conduct investigated by the preper authorities, and ventil-ated by the public, so far as a just regard for the ated by the public, to rar and antiditary service will permit.

Parma had nearly gained possession by constructing, at vest outlay, a bridge across the river Scholdt. To blow up that bridge was the saim of the Prote tant forces within the beleagusted city. Accordingly two first rips—loaded with all manner of combustibles and terrifule exploites—were floated down the ward the tridge during the darkness of the night.
